

## Mathcad 15 License Dat

If YES, then FLEXnet is installed on your PC. Do you know the FLEXnet installation directory? If YES, you will find the license.dat file in the license subdirectory. This is a license file. You need to copy it to the C:\ drive and then replace the existing file (if any). If you don't know where the LICENSE subdirectory is, read on. If not, then read on. 1. Turn off your computer. 2. Unplug the power cord from the outlet. 3. Press and release the Ctrl+Alt+Del keys. 4. Press F1 or F2 (call Task Manager) 5. Press F3 and when you see the line with the computer name, press Enter. 6. Rename the computer to HACKER. 7. Press F8.
